

Extra Heavy-Duty Truck Body with Gates

FEATURES

- Extra heavy duty tray with aluminium tubular headboard, aluminium drop in bar gates and checker plate tail light panel
- Designed and constructed from high quality aluminium, using advanced corrosion resistant (MMA) Methyl Methacrylate Structural Adhesive with structural rivets as an equivalent alternative to traditional methods
- One piece flush skin finish aluminium tray results in increased weight saving and increased payload capacity in addition to better fuel economy for all users.
- Non-rust anti-corrosive tray solution requires minimal maintenance and longer life expectancy with no paining of the tray required
- Hot dip galvanised parallel flange channel steel subframe and galvanised steel fish plates
- Tubular aluminium heavy duty rear bumper
- **12-Month Warranty (conditions apply)**

ADDITIONAL ACCESSORIES (sold separately)
